

AIREX DRY™

# MAXIMIZING YOUR COMFORT

## The Genuine MicroFinish®

Ultimate coating technology promises unparalleled grip performance for dry, wet, and oily materials, only available from Towa.

## All Around Breathability

A lightweight breathable nitrile coating on the palm guarantees the maximum airflow all around the gloves.

## Be “SMART”™

AirexDry™ with “SMART” technology eliminates uncomfortable feelings by absorbing and releasing the moisture from the gloves 30% faster than those with typical nylon liner.

## Protection by Sanitized®

AirexDry™ ensures the feeling of freshness and maxim comfort as well as protects your surroundings, supported by continuous cleanliness and antimicrobial treatment with Sanitized®.

## AIREXDry

### Introducing all new AirexDry™

AirexDry™ is proudly released with SMART™ liner technology with innovative moisture sensitive fibers. Coated with breathable nitrile in a cool, recognizable blue design, AirexDry™ is durable, yet offers all around breathability with a single MicroFinish® coating. Approved by Sanitized AG with the original formula, AirexDry™ promises ultimate freshness and ensures 100% safety for the skin. AirexDry is also REACH compliant.

EP Pat. No. 2143551

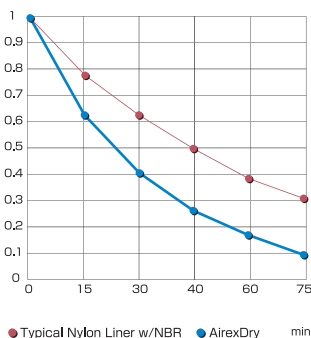

### Be "SMART"™ with AirexDry™

Towa's brand new Super Moisture Absorbent & Reduction Textile, or simply SMART™ liners absorb and evaporate moisture at a faster rate, while giving you fresh feelings. Patent pending SMART™ technology eliminates uncomfortable feelings and assures maximum comfort in many work situations.

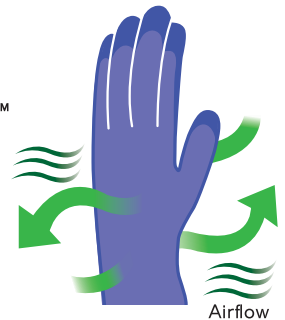

Residual Moisture in the Glove

### Feel the Maximum Comfort with All Around Breathability

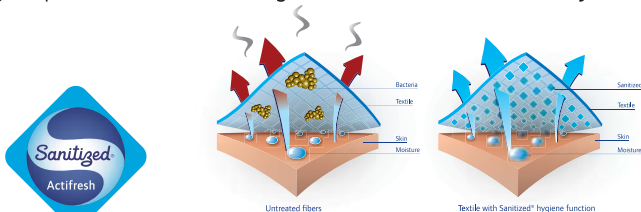

To maximize the performance, AirexDry™ comes with the original single MicroFinish® coating, making AirexDry™ all around breathable for maximum airflow.

MicroFinish® is a registered trademark of Towa Corporation.

### Fresh and Clean with Trusted Sanitized™.

Becoming an official partner of Sanitized AG, Towa proudly offers AirexDry™ with the original patented formula to bring absolute freshness to AirexDry™.

Sanitized® is a registered trademark of Sanitized AG.  
This product includes the active biocidal substance DDAC

### Genuine MicroFinish®

The grip performance of MicroFinish® is created by flexible compound filled with thousands of microscopic pockets to create a vacuum which disperses fluids and allows the entire grip surface to make clean contact with the objects.
