Interlac Pectin -feed supplement-

Main components:

Products and by-products from the processing of fruit.

Analysis values:

Nutrients:		
Crude protein	7.20	%
Crude fat	5.70	%
Crude fibre	24.50	%
Crude ash	2.10	%
Starch	3.20	%
Lysine	0.20	%

Bulk elements:	g/kg
Calcium	1.30
Phosphorus	1.30
Magnesium	0.50
Sodium	0.10

Trace elements:		mg/kg
Zn	=	5
Cu	=	6
Fe	=	87
Mg	=	6

1. Mechanisms of action:

Bipolar element chains with a high proportion of natural pectin.

2. Product manufacturing process:

Made from selected fruit and vegetables with high levels of intestinal activity.

3. Product treatment and processing:

Drying – grinding – mixing – packing.
