

Aesculap SnapOn blade sets

With our SnapOn precision blade sets, you obtain a range from the skin-tight 0.2 mm to the “curly” 9.5 mm.

New Wide Clipper Heads For Faster Results

Aesculap A5 type SnapOn blades

Precision from the profi, for the profi!

Blade set from Aesculap Schermaschinen are precision parts which aim at perfection. The blade set determines the performance of every clipper. The SnapOn blade set from the metal forge in Suhl/Thuringia are genuine “Made-in-Germany” products. Exceptionally high-quality cutting tools are manufactured from top-quality carbon blanks in several production stages, in compliance with medical technology directives. Except for the hardening process, the parts never leave the production facility.

This in-house production can only be to your advantage:

- **unmatched long cutting durability**, thanks to first-grade carbon steel
- **consistently high cutting capacity** of each individual blade set, thanks to state-of-the-art CNC grinding and milling equipment
- **exceptional coat gliding behaviour**, thanks to high-end surface finish
- **uniform and clean cutting pattern**, thanks to the specially developed tooth geometry
- **extremely regrindable, often up to 7 times**, thanks to the combination of material hardness, quality and manufacturing expertise

precise and consistent plate pressure for controlled heat generation

specially developed tooth geometry for precise immersion in the coat

Precision hollow-ground for the best clipping results

first-class raw materials for long-lasting cutting, and up to 7 regrinds

DLC blade sets

The Aesculap “Diamond-like Carbon” (DLC) coating perfectly combines the property profiles of diamond- and Teflon-based surface enhancement.

This special coating guarantees outstanding product properties:

- high wear protection and longer service life
- excellent gliding thanks to minimised frictional resistance
- extended edge retention
- increased corrosion protection
- reduced care requirement thanks to dirt-repellent surface

exceptional coat gliding behaviour due to high-end surface finish

Aesculap Blade Set SnapOn Stainless Steel

Discover our SnapOn blade set made of high-quality stainless steel, which impresses with its elementary material properties and long cutting life. Hygienic, easy to disinfect and with a perfect gliding sensation, it offers an effortless shearing experience.

- high-quality stainless steel with an excellent steel alloy
- easy to clean and very easy to disinfect
- optimum and long-lasting edge retention
- can be re-ground up to 5 times, for long-term use and efficiency

Changing the blade set

Removing the blade set:

1. loosen the blade set lock by pressing the push button
2. press against the blade set from the front to tip it backwards
3. pull the blade set out of the blade hinge

Attaching the blade set:

4. place the blade set on the blade hinge
5. switch on the machine
6. press the blade set forwards until it clicks

Important: the machine must be turned on so that the rocker arm can snap into the blade set. If it does not snap in, you will hear a “rattling” sound and the blade set will not cut.

Tip: If the blade hinge for the blade set is accidentally tipped, you can loosen it again using a screwdriver.

Durati Pro

All round professional cordless clipper

Aesculap Cordless Clipper Durati

Cordless clipper with 3,500 strokes/min, up to 4 hours running time and optimised power transmission for precise and quiet clipping, ideal for professional animal care.

- a high cutting speed via a high stroke rate of 3500 strokes per minute for an optimal cutting results
- powerful rechargeable battery with lithium-ion technology enables very long battery life of up to 4 hours
- powerful, brushless motor for tremendous pulling power
- ergonomically shaped handle area
- fatigue-free operation due to its extremely low weight
- charging station with charging compartments for machine and battery with LED display
- For optimum shearing results, we recommend using only original Aesculap SnapOn blade sets!

Included in Delivery:

- 1 x cordless clippers Durati,
- 1 x blade set (GT330),
- 1 x Aesculap oil (GT604),
- 1 x power pack with interchangeable plug (EU, UK, US, AUS),
- 1 x charging station,
- 1 x instruction manual

Consistently developed to meet professional requirements.

The Durati Pro has been specifically engineered to noticeably improve performance, smoothness and durability in daily use. Thanks to a newly designed power transmission, optimised geometries and wear-reducing components, the machine operates more directly, quietly and smoothly – for maximum professionalism when clipping with classic-width or extra-wide SnapOn clipping heads.

The Durati Pro stands for all-round optimised performance in professional use. Smoother operation, greater efficiency and improved power transmission ensure controlled, consistent shearing – even with intensive use.

An optional and extensive SnapOn blade set range means you can clip all kinds of coat types and up to 9.5 mm.

Use the optional stainless steel clip-on combs and you can even clip up to 32 mm.

When using the stainless steel clip-on combs, you should always add the blade set's "mm" to the comb you are using: e.g. GT330 #10 1.5 mm + GTA134 comb 16 mm = 17.5 mm cutting length result.

The stainless steel clip-on combs boast improved smoothness and durability as opposed to conventional plastic clip-on combs. They keep their shape and allow you to achieve cutting lengths you can't achieve just with blade sets.

You can purchase the Aesculap stainless steel SnapOn combs as a set of 9 in a practical case (GTA129) or individually.

The following sizes are available:

For SnapOn clipping heads GT317, GT326, GT330 and GT333

GTA130	red	3 mm
GTA131	violet	6 mm
GTA132	blue	10 mm
GTA133	brown	13 mm
GTA134	yellow	16 mm
GTA135	purple	19 mm
GTA136	green	22 mm
GTA137	light blue	25 mm
GTA138	black	32 mm

New: wide design for SnapOn cutter heads GT397, GT398 and GT399

GTA144	brown	13 mm
GTA145	yellow	16 mm
GTA146	orange	19 mm

Which blade set should I use for which coat?

The blade set advisor for SnapOn blade sets (A5 type)

It is important to use the right blade set for each coat type and for the various parts of an animal. There is a wide range of Aesculap SnapOn blade sets available.

These figures are indicative and based on experience; coat structures can vary by individual animal. We recommend analysing the coat structure before each use of the clippers.

How it works:

Select the animal species

Specify an existing model or search for new machine

Get matching blade sets and machines displayed

Save recommendations as a PDF

Shop with your Aesculap dealer

What is so special about Aesculap clipper products?

Aesculap Clippers are:

- very robust and reliable
- can manage even difficult coats
- high-quality components and processing
- Made in Germany

...and the blade sets and clipping blades have the following advantages:

- the best clipping properties
- long-lasting cutting performance
- can be resharpened up to 7 times

- the development and production of the machines and blade sets at Aesculap Schermaschinen GmbH in Suhl
- expertise in developing clippers, blade sets and clipping blades

Aesculap clippers – quality from Germany – since 1912

Got questions about our clippers?

Our product experts will be pleased to answer all of your questions about the types of machines, shearing blades and the professional use of the equipment.
